

### Description:

Fast action cleaning gel that removes easily stains of oxides, scale and all type of incrustations. It's high concentration and viscosity level, grants a special adherence on the surfaces to be treated, without causing steam or toxic gases.

### Key Properties:

Powerful hygienizing and descaling action at ceramic lavatories, toilets, public

toilets and urinals in bathrooms. Cleans quickly glazed tiles, baths, faucets and all type of washable surfaces in bathrooms. Avoid contact with aluminium

### Use Instructions:

Apply the product purely underneath the edge of the toilet or on the dry surface of the urinal. Leave it for a few minutes and rinse after with plenty of water. In case of persistent dirtiness, scrub with a toilet brush.

We recommend the use of gloves. NEVER MIX WITH OTHER PRODUCTS. On metal surfaces, it is recommended to make a test first on a hidden area.

### Technical Data:

#### \* PROPERTIES:

Concentrated descaler gel that cleans, deodorizes and disinfects surfaces quickly.

#### \* SPECIFICATIONS:

Appearance: viscous liquid

Colour: blue

Odour: scented

Density (20°) : 1.080 – 1.084 Gr/cc.

PH (20°): <1.0

Solubility in water: totally soluble

\* COMPOSITION: Chloridric acid, phosphoric acid, Non-ionic Surfactants and Perfume.

### Preservation and Storage:

Keep in its original package tightly closed, protecting it from cold and intense heat. Avoid freezing. Do not expose to direct sunlight.

### Security and Handling:

CONTAINS CHLORIDRIC AND PHOSPHORIC ACID. Causes burns.

Keep out of reach of children. Do not swallow. In case of contact with eyes, wash immediately with plenty of water and seek medical advice. Use proper clothing and gloves and eyes/face protection. In case of accident or discomfort, seek

immediately medical advice. (if possible, show the label of the container). PROFESSIONAL USE.
